RoadLeveler: High Performance Ride Control and Steering Products

Maintaining your truck's steering and ride control systems is critical for more than just a comfortable ride. It's essential for safe operation. Proper maintenance of this system reduces tire wear, the second highest vehicle expense after fuel costs. Good maintenance practices, coupled with timely parts replacement, save on repair costs and down time in the long run...and when you are replacing parts, choose RoadLeveler ride control and steering components.

RoadLeveler is part of the PACCAR Parts family. As in all of our lines, it features high-quality parts that are constructed to OEM specifications. The comprehensive PACCAR Parts warranty backs all of the components as always, and many of these parts feature additional warranties. Here are just a few examples of the quality you will find when choosing RoadLeveler parts.

RoadLeveler's OE shocks are standard with premium features such as HT fluid, a double lip Viton® rod seal, iron piston rings, and the largest piston and body size for their application. For ride performance that is optimized for OE applications to OE specification, ask for RoadLeveler's OE shock absorbers.

- **The TruckMaster by RoadLeveler** is the ultimate high-performance shock. Offering up to 40% more ride-control power, this shock features urethane end bushings for longer life, specially formulated high-temperature fluid, chrome piston rod, and a silicon coated piston ring, among other well-designed components. A three-year warranty stands behind the TruckMaster shock.
- **Steering ends by RoadLeveler** are self-adjusting to compensate for wear and feature a permanently attached, tough polyurethane seal that keeps contamination out and clean grease inside the socket. RoadLeveler steering ends come with a two-year warranty.

RoadLeveler king pin kits, torque rods and other ride control components also feature the same high level of engineering and craftsmanship that comes with all RoadLeveler products.

Clearly, choosing a RoadLeveler component gets you more than just a truck part.

Featuring OEM quality for all makes product coverage, the RoadLeveler brand meets the trucking industry's needs and keeps drivers on the road doing business. Browse through the catalog. Talk with your dealer about your needs. RoadLeveler can help you get the job done.

Shock absorbers engineered with the same focus on quality, design, longevity and endurance that you've come to expect

TRUCK MASTER *Premium Performing Shocks*

The Ultimate High Performance Shock

Urethane bushings, 1-5/8" bore with hydraulic lock, bulged body design, increased fluid capacity, specially formulated high temperature fluid, chrome silicon springs, viton rod seal, self compensating piston ring.

OE ROAD LEVELER

The Next LEVEL in Ride Control

Advanced Original Equipment design for today's Heavy Duty Trucks.

Premium rod seal, floating metal piston seal, advanced hydraulic oil resists gradual internal failure. Big bore power, exclusive 9-Stage valving, hydraulic rebound stop absorbs more road shock and continuous control.

GS **ROAD** **LEVELER**

Heavy Truck Gas Shock Adjustable

Heavy Truck Gas adjustable shock, the 89400 Series.

Three rides.... One shock, featuring a unique double sealing gas cell and personal adjustable ride selection process

FLEETLINE

Heavy Duty Truck, Trailer and Bus Shocks.

Heavy duty truck, trailer and bus shock, the 83000 / 85000 / 85300 / 85700 Series.

Added durability makes this line of shocks the standard Heavy Duty product for today's low friction suspensions.

FLEETLINE **Cab Shocks**

Designed specifically to eliminate cab vibration with a unique Gas Cell design to reduce fade, 9-Stage valving, multi-lip piston seal protection, 1", 1-3/16", 1-3/8", 1-5/8" bore size provide customized suspension for different cab designs.

King Pins:

Another industry exclusive, Roadleveler King Pin Kits offer a 2 Year / 250,000 mile Warranty

RoadLeveler King Pin Kits are manufactured to original equipment designs or better. With over 360 applications covered the RoadLeveler program is the industry's most comprehensive.

Steering Ends:

Only RoadLeveler Tie Rod Ends come with a 2 Year Warranty

Full Ball Stud design provides optimum angulation. Self-lubricating bearing seats and elastomeric compression rings ensure the bearing stays firmly seated against the ball stud withstanding road shocks, reducing vibration and resulting in smoother steering.

Torque Rods:

Whether Sliding, Split Bearing or Rubber Bushed design the RoadLeveler Torque Rod meets original equipment specifications for on-highway use and the high articulation needs of vocational applications.

Height Control Valves:

The RoadLeveler HCV product provides maximum performance and durability for air suspension systems. With the patented Shear-Seal™ metal to metal seal design the RoadLeveler HCV ensures tight sealing, unaffected by normal contaminants in the air supply.

Amortiguadores contruidos con la ojeada en la calidad, el diseño, la longevidad y la resistencia que usted ha venido esperar.

TRUCK MASTER

Amortiguadores de alto desempeño

El último amortiguador de alto rendimiento

Cojinetes de uretano, bloqueo hidráulico con calibre 1-15/8", diseño de cuerpo combado, mayor capacidad de fluidos, fluido especialmente formulado para alta temperatura, muelles de cromo silicio, varilla de obturación de vitón, aro de pistón de compensación automática.

OE ROAD LEVELER

El siguiente NIVEL de control de la conducción

Diseño de equipo original avanzado para los camiones de gran capacidad de hoy en día.

Varilla de obturación de gran calidad, junta de pistón metálico flotante, aceite hidráulico superior resiste las fallas graduales internas. Potencia de gran calibre, exclusivas válvulas de 9 etapas, retén de rebote hidráulico amortigua más y brinda control continuo.

Garantía
de 3 años
480 000
kilómetros

GS ROAD LEVELER

Amortiguadores a gas ajustables para camiones tractores

Amortiguador ajustable de gas para camiones pesados, Serie 89400.

Tres marchas...un amortiguador. Tiene la característica de una célula de gas de sellamiento doble y un proceso de selección de marcha ajustable.

FLEETLINE

Amortiguadores para camiones tractores, remolques y autobuses.

Amortiguador para colectivos, camiones y remolques de gran capacidad, Serie 83000 / 85000 / 85300 / 85700

Su mayor durabilidad hace de esta línea de amortiguadores el producto de gran capacidad estándar de la suspensión de baja fricción de hoy en día.

FLEETLINE

Amortiguadores para cabina

Diseñado especialmente para eliminar la vibración de la cabina con una célula de gas única que suaviza los impactos, válvulas de 9 etapas, protección con sello de pistón multilabial, los tamaños de calibre 1", 1-3/16", 1-3/8", 1-5/8" brindan suspensión especial para los diferentes tipos de cabina.

Pivotes de dirección:

Otro producto exclusivo. Los juegos de pivotes de dirección RoadLeveler cuentan con una garantía de 2 años/400,000 kilómetros.

Los juegos de pivotes de dirección RoadLeveler se fabrican según diseños de equipos originales o mejores. Con más de 360 aplicaciones cubiertas, el programa de RoadLeveler es el más integral en el sector industrial.

Extremos de barra de acoplamiento:

Sólo los extremos de barras de acoplamiento RoadLeveler cuentan con una garantía de 2 años.

El diseño de pasadores esféricos completos brinda una angulación óptima. Asientos de cojinetes autolubricados y los aros de compresión elástica aseguran que los cojinetes permanezcan firmemente asentados contra el pasador esférico resistiendo los impactos del camino, reduciendo las vibraciones y permitiendo una marcha más fluida y sin complicaciones.

Barras de torsión:

Ya sea que se trate de un diseño deslizante, cojinete dividido o casquillos de caucho, la barra de torsión RoadLeveler cumple las especificaciones de los equipos originales para uso en carretas y las necesidades de alta articulación de las aplicaciones profesionales.

Válvulas de control de altura:

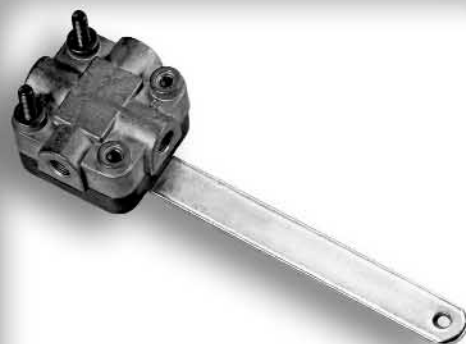

Las válvulas de control de altura RoadLeveler brindan un desempeño y durabilidad máximos para los sistemas de suspensión de aire. Con el diseño patentado Shear-Seal™ de sellos metal a metal, la válvula de control de altura RoadLeveler asegura un sellado preciso, al que no le afectan los agentes de contaminación normales presentes en el suministro de aire.

Amortisseurs conçus avec l'accent sur la qualité, le design, la durabilité et l'endurance auquel vous vous attendez.

TRUCK MASTER

Amortisseurs de première qualité

Le summum en amortisseurs haute performance

Bagues en uréthane, alésage 1 5/8 po avec verrou hydraulique, corps bombé, capacité accrue de fluide, fluide haute température de composition spéciale, ressorts en silicium chromé, joints de bielle en Viton, segment de piston autocompensateur.

OE ROAD LEVELER

Le NIVEAU suivant en contrôle de roulement

Modèle d'origine avancé pour les poids lourds modernes.

Joint de bielle de première qualité, joint métallique flottant de piston, huile hydraulique avancée résistant à la défaillance interne graduelle. Gros alésage, valves à 9 étages exclusive, butée de rebond hydraulique absorbant plus de chocs et offrant un contrôle continu.

Garantie
de 3 ans,
480 000
kilomètres

GS ROAD LEVELER

Amortisseur à gaz ajustable pour poids lourds

Amortisseur ajustable au gaz pour poids lourds, la série 89400

Trois niveaux ... Un amortisseur. Cellule jumelée scellée au gaz, unique en son genre et sélecteur de niveau de roulement.

FLEETLINE

Amortisseurs pour poids lourds, remorques et autobus

Amortisseur pour poids lourds, remorques et autobus, les séries 83000 / 85000 / 85300 / 85700

La durabilité accrue fait de cette gamme d'amortisseurs le produit standard pour les poids lourds équipés d'une suspension à coefficient de frottement réduit.

FLEETLINE

Amortisseurs de cabine

Spécialement conçus pour éliminer les vibrations dans la cabine grâce au module Gas Cell unique en son genre pour empêcher la réduction d'intensité, valve à 9 étages, protection par joint de piston à lèvres multiples, alésages de 1, 1 3/16, 1 3/8 et 1 5/8 po pour une suspension adaptée aux divers modèles de cabines.

Pivots de fusée

Une autre exclusivité dans l'industrie, les ensembles de pivots de fusée RoadLeveler viennent avec une garantie de 2 ans / 400 000 kilomètres

Les ensembles de pivots de fusée RoadLeveler sont conformes aux spécifications d'origine ou mieux. Couvrant plus de 360 applications, le programme RoadLeveler est l'un des plus étendus dans l'industrie.

Embouts de tirant

Seuls les embouts de tirant RoadLeveler viennent avec une garantie de 2 ans 320 000 kilomètres

Pivot à rotule complet pour une angulation optimale. Les sièges de palier autolubrifiants et les bagues de compression élastomériques assurent que le palier reste solidement assis contre le pivot à rotule, supportant les chocs routiers, réduisant les vibrations et assurant une direction plus douce.

Bielles de réaction

Qu'elles soient de type à glissoir, à palier fendu ou à palier de caoutchouc, les bielles de réaction RoadLeveler sont conformes aux spécifications d'origine pour l'usage routier, et leur grande articulation satisfait les besoins des applications routières spécialisées.

Valves de contrôle de la hauteur

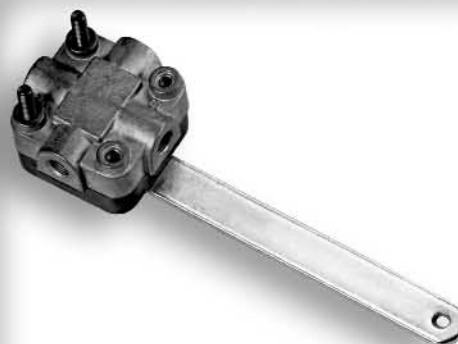

Les valves HCV RoadLeveler offrent un rendement et une durabilité maximaux sur les suspensions pneumatiques. Dotées d'un joint métal-métal Shear-Seal^{MD} breveté, les valves HCV RoadLeveler assurent une grande étanchéité de l'alimentation en air, que les contaminants normaux ne peuvent affecter.

GS ROAD LEVELER™

**WITHOUT
CONTROL...
NOTHING ELSE
MATTERS!**

Three Rides... One Shock!

Three Rides... One Shock!

The three position Roadleveler GS adjustable shock allows you to choose from one of 3 settings:

- The "Firm" setting is the closest to the O.E. ride performance.
- The "Regular" and "Extra Firm" settings allow you to create either a softer or a firmer ride.

**¡SIN CONTROL
LO DEMÁS NO
IMPORTA!**

¡Tres marchas..... un amortiguador!

El amortiguador Roadleveler GS ajustable de tres posiciones le permite elegir una de tres posiciones:

- "Firme" es la posición más cercana al desempeño de marcha de equipo original.
- Las posiciones "Normal" y "Extra firme" le permiten crear una marcha más ligera o más firme.

**LE CONTRÔLE
AVANT TOUT !**

Trois niveaux... Un amortisseur!

L'amortisseur RoadLeveler GS à trois positions ajustables vous laisse choisir l'un de trois niveaux :

- Le réglage « Ferme » s'approche le plus de la performance de l'équipement de première monte.
- Les réglages « Régulier » et « Extra ferme » permettent de choisir un roulement plus doux ou plus ferme.

* Although the competitive product is a 1-3/8" small bore design, PACCAR recommends replacement with our 1-5/8" large bore product due to the high durability requirements of this application. Bien que le produit concurrent ait un petit alésage de 1-3/8 po, PACCAR recommande l'utilisation de son produit à grand alésage de 1-5/8 po car cette application exige une grande durabilité. Aunque el producto competitivo es de un diseño de diámetro interior pequeño de 1-3/8 pulg., PACCAR recomienda el reemplazo con un producto de diámetro interior más grande de 1-5/8 pulg. debido a los elevados requerimientos de durabilidad de esta aplicación.

Important Note: Competitive Interchanges are to be used for stocking purposes only. *Where multiple crosses are identified, please reference the applications section of this catalog.* / **Remarque importante:** Les interchanges concurrentiels ne s'utilisent qu'aux fins de stocks. *Dans le cas de références multiples, consulter la section des applications du catalogue.* / **Nota Importante:** Se pueden usar intercambios competitivos para propósitos de almacenamiento solamente. *Cuando se identifican intercambios múltiples, consulte la sección de aplicaciones de este catálogo.*

* Although the competitive product is a 1-3/8" small bore design, PACCAR recommends replacement with our 1-5/8" large bore product due to the high durability requirements of this application. Bien que le produit concurrent ait un petit alésage de 1-3/8 po, PACCAR recommande l'utilisation de son produit à grand alésage de 1-5/8 po car cette application exige une grande durabilité. Aunque el producto competitivo es de un diseño de diámetro interior pequeño de 1-3/8 pulg., PACCAR recomienda el reemplazo con un producto de diámetro interior más grande de 1-5/8 pulg. debido a los elevados requerimientos de durabilidad de esta aplicación.

Important Note: Competitive Interchanges are to be used for stocking purposes only. *Where multiple crosses are identified, please reference the applications section of this catalog./ Remarque importante:* Les interchanges concurrentiels ne s'utilisent qu'aux fins de stocks. *Dans le cas de références multiples, consulter la section des applications du catalogue. / Nota Importante:* Se pueden usar intercambios competitivos para propósitos de almacenamiento solamente. *Cuando se identifican intercambios múltiples, consulte la sección de aplicaciones de este catálogo.*

* Although the competitive product is a 1-3/8" small bore design, PACCAR recommends replacement with our 1-5/8" large bore product due to the high durability requirements of this application.
 Bien que le produit concurrent ait un petit alésage de 1-3/8 po, PACCAR recommande l'utilisation de son produit à grand alésage de 1-5/8 po car cette application exige une grande durabilité.
 Aunque el producto competitivo es de un diseño de diámetro interior pequeño de 1-3/8 pulg., PACCAR recomienda el reemplazo con un producto de diámetro interior más grande de 1-5/8 pulg.
 debido a los elevados requerimientos de durabilidad de esta aplicación.

Important Note: Competitive Interchanges are to be used for stocking purposes only. *Where multiple crosses are identified, please reference the applications section of this catalog.* / **Remarque importante:** Les interchanges concurrentiels ne s'utilisent qu'aux fins de stocks. *Dans le cas de références multiples, consulter la section des applications du catalogue.* / **Nota importante:** Se pueden usar intercambios competitivos para propósitos de almacenamiento solamente. *Cuando se identifican intercambios múltiples, consulte la sección de aplicaciones de este catálogo.*

HOW TO DETERMINE THE CORRECT SHOCK FOR YOUR TRUCK

COMO ESCOGER EL MEJOR AMORTIGUADOR PARA SU CAMIÓN

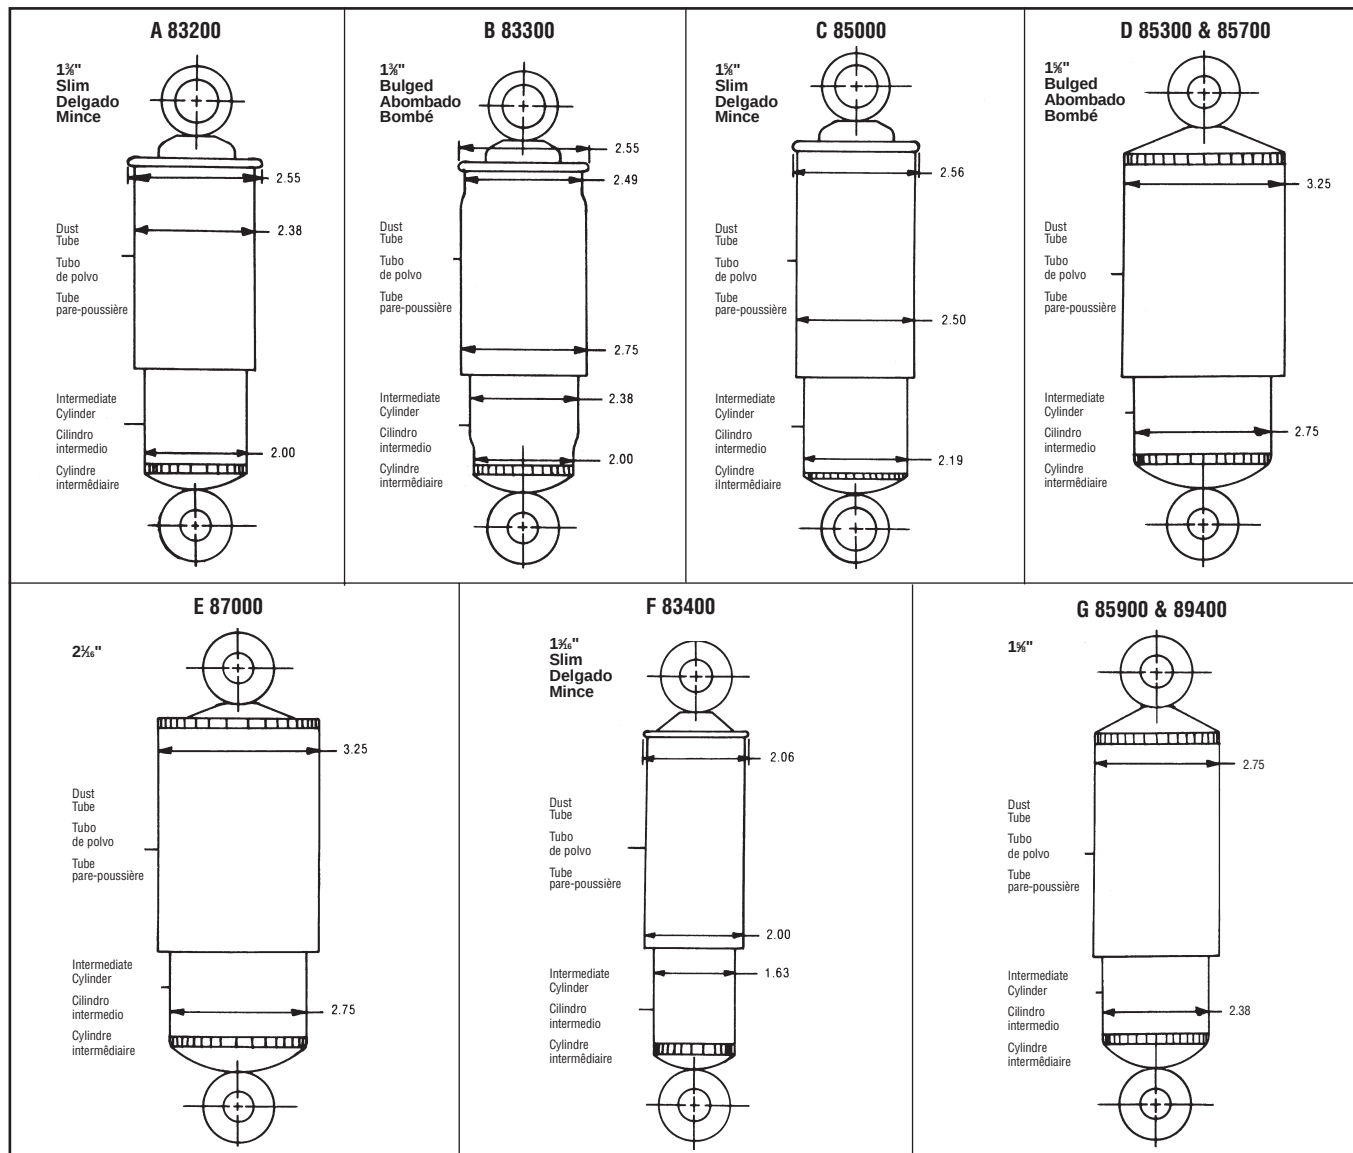

COMMENT CHOISIR LE BON AMORTISSEUR POUR VOTRE CAMION.

STEP 1: Measure the diameter of the dust tube and cylinder to determine the series.

1^{ER} PASO Mida el diámetro del tubo de polvo y del cilindro para determinar la serie.

1^{RE} ÉTAPE Mesurez le diamètre du tube de poussière et du cylindre pour déterminer la série.

EXTERNAL DIMENSIONS DIMENSIONES EXTERNAS DIMENSIONS EXTÉRIEURES

STEP 2: Identify the mounting style. Measure fully extended and fully collapsed lengths at the locations indicated for mounting style.

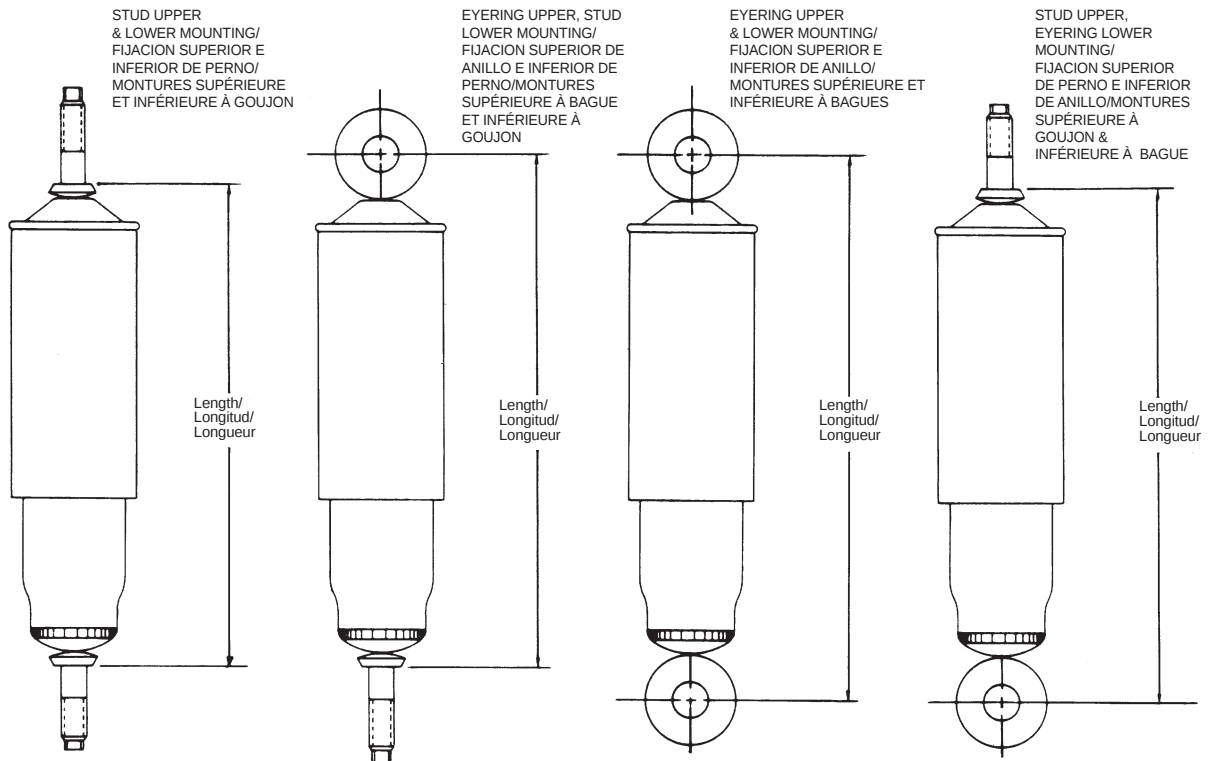

2º PASO

Identifique el método de fijación. Mida la extensión máxima y la compresión máxima en los lugares indicados para la fijación.

2^E ÉTAPE

Identifiez la méthode de fixation. Mesurez la longueur en pleine extension et en pleine compression, aux endroits indiqués pour la méthode de fixation.

HOW TO MEASURE EXTENDED & COLLAPSED LENGTHS OF SHOCK ABSORBERS COMO MEDIR LAS LONGITUDES EXTENDIDA Y COMPRIMIDA DE LOS AMORTIGUADORES COMMENT MESURER LES LONGUEURS ALLONGÉ ET COMPRIMÉ DES AMORTISSEURS

INSTRUCTIONS:

- Using the proper measuring points as shown above find the nearest replacement shock absorber from the listing by increments of extended length.
- Identify the proper mounting from the mounting codes and match these requirements by carefully measuring the mounting dimensions (top and bottom) of the shock absorber to be replaced.
- Carefully take note of the following requirements:
 - Dust tubes** - This requirement should be noted in comparison with the shock absorber to be replaced. Shock absorber environment in its application makes this requirement necessary for piston rod protection and extended shock absorber life.
 - Recoil Cutoff and Compression Bumper** - Carefully note these specifications - deviation of length requirements should not exceed $\pm \frac{1}{4}$ ". These shock absorber designs are footnoted for easy identification.

Note: Shock Absorbers used for installations other than those recommended in our catalog are **not subject to warranty**.

INSTRUCCIONES:

- Usando los puntos de medida adecuados como mencionado, encuentre el amortiguador más cercano en la lista por incrementos de la longitud extendida.
- Identifique la fijación adecuada por medio de los códigos de fijación y compare estas especificaciones, midiendo cuidadosamente las dimensiones de la fijación (superior e inferior) del amortiguador por reemplazar.
- Note cuidadosamente las exigencias siguientes:
 - Guarda polvo** : esta exigencia debe notarse en comparación con el amortiguador por reemplazar. Esta exigencia es necesaria en cuanto a los amortiguadores para proteger al vástago del pistón y extender la duración del amortiguador.
 - Tope de retorno y tope de compresión** . Note cuidadosamente las especificaciones siguientes : las exigencias de longitud no deben de ser excedidas $\pm \frac{1}{4}$ ". Estos diseños de amortiguadores están marcados para facilitar su identificación.

Nota : Los amortiguadores usados para instalaciones otras que las recomendadas en nuestro catálogo **no son garantizados**.

INSTRUCTIONS:

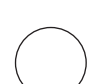

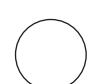

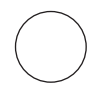

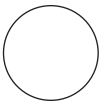

- En utilisant les points de mesure appropriés comme indiqués ci-dessus, trouvez l'amortisseur de rechange le plus près de cette mesure d'après la longueur allongée.
- Repérez les montures appropriées sur les codes des montures et faites correspondre ces exigences en mesurant attentivement les dimensions des montures (haut et bas) de l'amortisseur à remplacer.
- Avec soin, prenez note des exigences suivantes:
 - Tubes pare-poussière** - Cette exigence devrait être notée en comparaison de l'amortisseur à remplacer. Le milieu de service rend cette exigence nécessaire pour la protection de la tige de piston et une meilleure longévité de l'amortisseur.
 - Arrêt de retour et butée de compression** - Notez avec soin ces spécifications. La déviation par rapport aux exigences de longueurs ne doit pas dépasser $\pm \frac{1}{4}$ po. Ces modèles d'amortisseurs portent une note pour une identification facile.

Note: Les amortisseurs utilisés pour des installations autres que celles recommandées dans notre catalogue **ne sont pas couverts par la garantie**.

STEP 3: Measure end mount diameters, widths, and lengths. Refer to pages 200 to 202 to determine the mounting code.

3^{ER} PASO Mida las dimensiones del tubo, así como el diámetro, la anchura y la longitud de las fijaciones. Consulte el catálogo en pages 200 à 202 para los códigos de fijación.

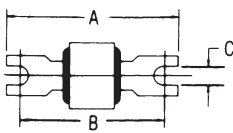

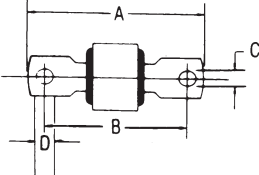

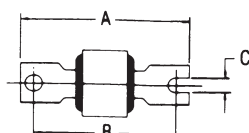

3^E ÉTAPE Mesurez le diamètre, la largeur et la longueur des bagues. Déterminez les codes de fixation aux pages 200 à 202.

EXPLANATION OF COLUMN HEADINGS EXPLICACION DE LOS TITULOS DE LAS COLUMNA EXPLICATION DES EN-TÊTES DE COLONNES

SHOCK ABSORBER PART NUMBER:

The catalog number for the individual shock absorber.

EXTENDED LENGTH:*

The length of the shock absorber when it is fully extended. See "How to Measure" instructions.

COLLAPSED LENGTH:*

The length of the shock absorber when it is fully compressed. See "How to Measure" instructions.

STROKE:

This is the approximate length of the stroke of the individual shock absorber being described.

MOUNTING CODES:

Indicates the type of mounting ends for the upper and lower end of each shock absorber. They are listed as follows:
Stud Type Mounts ("S" & "DS")
Eye Ring and Bushing Mounts ("EB")
Eye Ring and Bushing with Sleeve Mounts ("ES")
Eye Ring and Bushing with Bar Pin Mounts ("BP")
Special Mounting Codes ("SP")

DUST TUBE:

Indicates whether the shock absorber is supplied with a dust tube.

MOUNTING ACCESSORY PACKAGE NUMBER:

The part number of the Mount Accessory Package supplied with the shock absorber.

*NOTE:

All dimensions shown are in inches

Número de parte del amortiguador :

El número de catálogo para el amortiguador individual

Longitud extendida :

La longitud del amortiguador cuando es totalmente extendido. Ver instrucciones «Cómo medir»

Longitud comprimida :

La longitud del amortiguador cuando es totalmente comprimido
Ver instrucciones «Cómo medir»

Carrera :

Es la longitud aproximada de la carrera del amortiguador descrito

Códigos de fijación :

Indica el tipo de montantes de fijación superior e inferior para cada amortiguador. Se listan como sigue :
Fijaciones de tipo perno («S» y «DS»)
Fijaciones de anillo y buje («EB»)
Fijaciones de anillo y buje con camisa («ES»)
Fijaciones de anillo y buje con clavija («BP»)
Códigos de fijación especiales («SP»)

Tubo de polvo :

Indica si el amortiguador está provisto con un tubo de polvo.

Número de paquete de accesorios de fijación :

El número de parte del paquete de accesorios de fijación provisto con el amortiguador

*NOTA :

Todas las dimensiones son en pulgadas

Numéro de pièce de l'amortisseur:

Le numéro de catalogue pour l'amortisseur individuel.

Longueur étirée:*

La longueur de l'amortisseur entièrement étiré. Voir "Comment mesurer".

Longueur comprimée:*

La longueur de l'amortisseur entièrement comprimé. Voir "Comment mesurer".

Course:

C'est la longueur approximative de la course de l'amortisseur individuel décrit.

Codes de montage:

Indique le type de montures supérieure et inférieure de chaque amortisseur. Ils sont énumérés comme suit:

Montures de type goujon ("S" & "DS")
Montures à bague et manchon ("EB")
Montures à bague et manchon avec collet ("ES")
Montures à bague et manchon avec goupille ("BP")
Codes de montures spéciales ("SP")

Tube pare-poussière:

Indique que l'amortisseur est fourni avec un tube pare-poussière.

Numéro d'emballage d'accessoires de montage:

Le numéro de pièce de l'emballage d'accessoires de montage fourni avec l'amortisseur.

*NOTE:

Toutes les dimensions indiquées sont en pouces

STEP 4:

Refer to shock absorber specifications by end mount. Start first by finding the appropriate series. Next, match the extended/collapsed length and find the correct mounting codes. Refer to the far left column of the chart for the correct Gabriel Shock Absorber part number.

4º PASO

Consulte las especificaciones del amortiguador mostradas al final del catálogo. Encuentre primero la serie adecuada. Luego, compare las longitudes de extensión y de compresión, y encuentre los códigos de fijación correctos. Consulte la columna del extremo izquierdo de la tabla para identificar el número de parte del amortiguador Gabriel correcto.

4^E ÉTAPE

Reportez-vous aux spécifications d'amortisseur énoncées à la fin du catalogue. Trouvez d'abord la série appropriée. Comparez ensuite les longueurs d'extension et de compression et trouvez les bons codes de fixation. Reportez-vous à la colonne située à l'extrême gauche du tableau pour identifier le bon numéro de pièce pour un amortisseur Gabriel.

* Damping force, in pounds, to either extend or collapse the shock absorber at an average operating velocity.

Fuerza de amortiguación en libras para extender o comprimir el amortiguador a una velocidad de operación promedio.

La puissance d'amortissement en poids de l'amortisseur, soit comprimé, doit détendu, à une vitesse de fonctionnement moyenne.

‡ For GasSLX Series, forces are at the "Firm" (F) setting. / Para la serie Gas SLX, las fuerzas están ajustadas en (F) "Firme". / Pour la série GasSLX, le réglage de la force est sur « Ferme » (F).

* Damping force, in pounds, to either extend or collapse the shock absorber at an average operating velocity.

Fuerza de amortiguación en libras para extender o comprimir el amortiguador a una velocidad de operación promedio.

La puissance d'amortissement en poids de l'amortisseur, soit comprimé, doit détendu, à une vitesse de fonctionnement moyenne.

‡ For RoadLeveler GS Series, forces are at the "Firm" (F) setting. / Para la serie RoadLeveler GS, las fuerzas estan ajustada en (F) "Firme". / Pour la série RoadLeveler GS, le réglage de la force est sur « Ferme » (F).

KING PIN KITS

KIT DE EJE DE GIRO

NÉC. DE PIVOT DE FUSÉE

Product Design:

RoadLeveler King Pin Kits

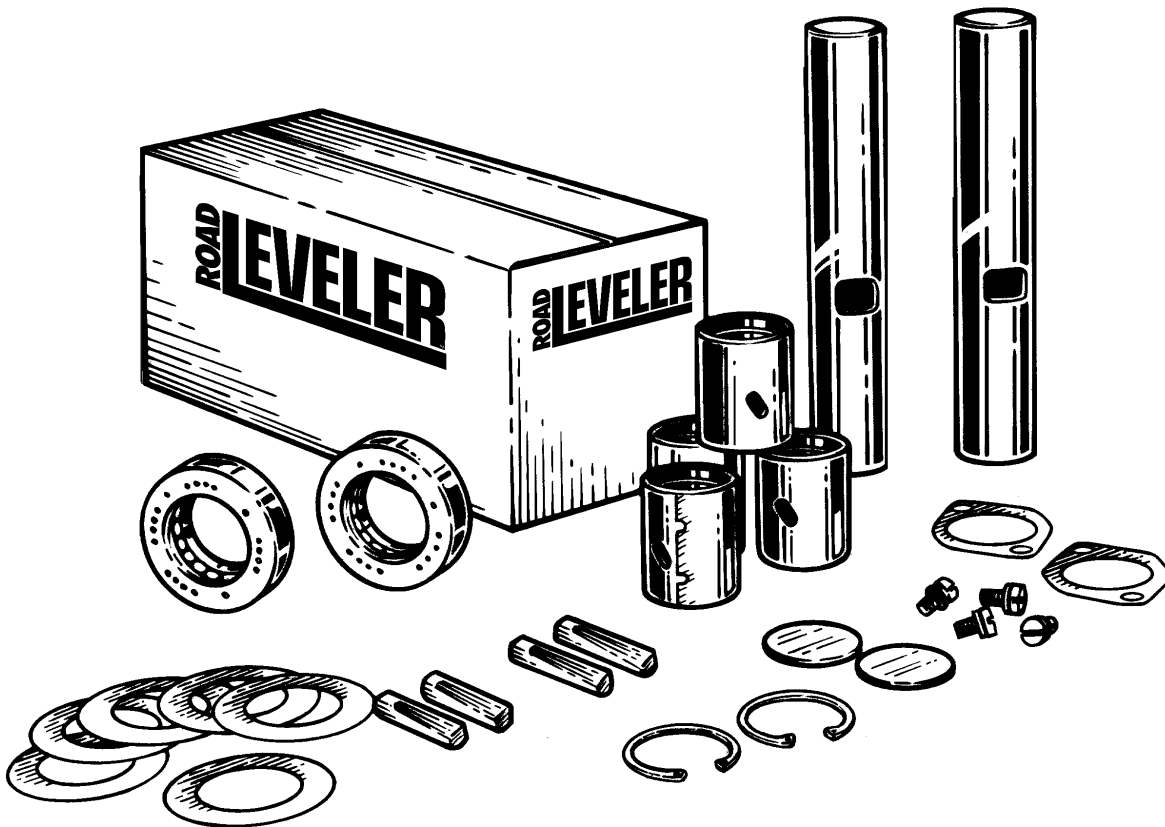

- Meet or exceeds OEM designs
- Manufactured using state-of-the-art heat treatment and machine tool technology
- 100% manufacturing lot traceable
- Manufactured with steel from OEM approved mills.

Product Features:

Roadleveler King Pin Kits

- Manufactured to meet or exceed OEM specifications
- Backed by a two year / 250,000 mile warranty - best in the industry.
- Provide the most comprehensive industry allmakes coverage with 360 applications in 2,600 configurations.
- Offer cradle to grave replacement kit coverage

OEM/COMPETITOR CROSS REFERENCE

PLEZAS DE SUBSTITUCIÓN DE COMPETIDORES

ARTICLES CONCURRENTS

NOTE: The cross reference lists have been carefully researched to make them as accurate and up to date as possible. We caution you to use this cross reference as a guide only. If you are not sure which part to use, always follow the vehicle manufacturer's specification. If necessary, compare the information in the cross reference lists to the appropriate catalog pages to double check for part dimensions and application information.

STEERING ENDS

EXTREMO DEL BRAZO DE DIRECCIÓN

EMBOUT DE BIELLETTE DE DIRECTION

Function:

Steering Ends and Links are used to facilitate the steering of the vehicle. The steering ends are used on both ends of the Drag Link and Tie Rod to provide for movement of the steering linkage. Both Tie Rod Ends and Drag Links are major pivot points of the steering system and are regularly subject to great pressure. Consequently, when these components become loose or worn, a variety of steering problems can occur, including noise, uneven tire wear and erratic steering.

Inspection/Replacement

Tie Rods are the primary parts inspectors examine to check for steering linkage wear. Tie Rods and Drag Links should be checked for any lateral or vertical movement by hand. If movement or looseness is felt, remove and replace the ends.

When replacing Tie Rods it is recommended that both sides be replaced at the same time to avoid uneven steering.

It is also recommended to inspect Drag Link Ends at the same time Tie Rod Ends are replaced.

Quality:

1. Micro-Finished, Heat Treated Steel Ball Stud:

A Full Ball design provides optimum angulation. It is seated between two acetal plastic bearing seats.

2. Molded Acetal Plastic Bearing Seats:

A gap between the grooved seats allows for wear, compression and grease flow. These bearing seats are self-lubricating and extend the life of the product.

3. Elastomeric Compression Ring:

The ring takes up wear in the bearing seats (there is no springs to fatigue or break). As the bearing seats wear, the self adjusting compression ring expands to keep the seats tight. Bearing stay firmly seated against the ball stud which reduces vibration and results in smoother steering.

4. End Cap staked to Socket:

Contamination is positively sealed out and grease is kept in with the end cap secured to the socket.

5. Forged Steel Socket:

Tough and durable to withstand road shocks.

6. Polyurethane Seal:

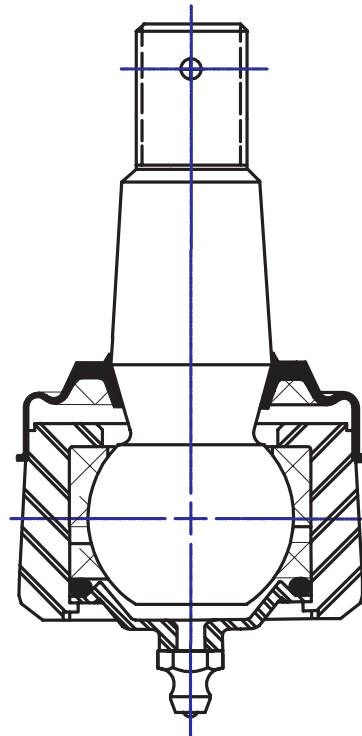

Grease is kept clean because contamination is kept out and ozone cannot cause the seal to deteriorate. Punctures will not tear or expand.

7. Steel Locking Ring:

Prevents the seal from lifting off the socket without constricting ball stud movement.

8. Grease Fitting Located in Cap:

Easy to access, when lubrication is required.

STEERING ENDS

EXTREMO DEL BRAZO DE DIRECCIÓN

EMBOUT DE BIELLETTE DE DIRECTION

Design Features Include:

Permanent Lubrication:

Lubrication is not required with RoadLeveler Tie Rod Ends because they are designed with a bearing construction that eliminates the need for additional grease. Grease fittings are available if they are required, but the “lubed for life” feature is still retained.

Permanent Seal:

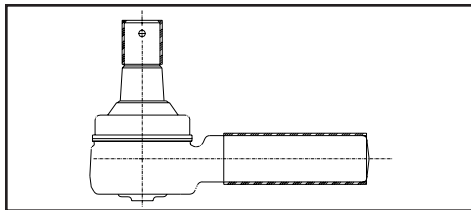

RoadLeveler Tie Rod Ends are protected by a permanently attached, tough polyurethane seal. This seal will keep contamination out while keeping clean grease inside the socket.

Self Adjusting for Wear:

All RoadLeveler Tie Rod Ends are self adjusting to compensate for any wear that may occur in the bearing seats.

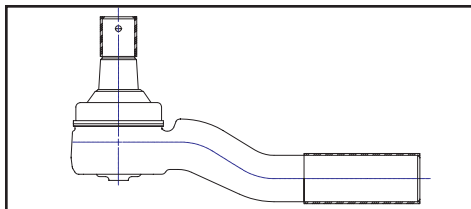

Available for Most Vehicle Classes:

RoadLeveler Tie Rod Ends are available for medium and heavy duty truck (classes 5, 6, 7 & 8), offroad and specialty vehicle applications.

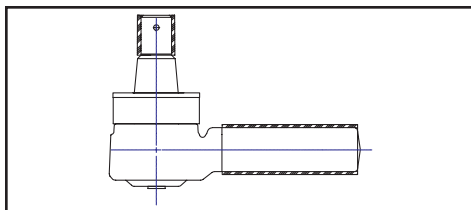

Type 1: Standard End Design

The straight end design is used for the majority of on-highway applications. Tie Rod applications require less articulation than Drag Link applications and therefore have separate part numbers. Axle ratings for these end range from 5,000 lb. to 22,000 lb.

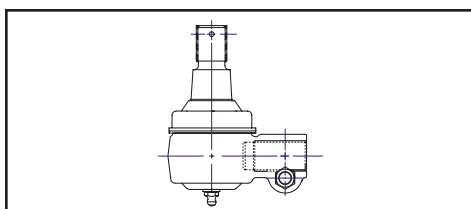

Type 2: Drop Down Design

The drop down design provides additional clearance for the Tie Rod Connector where necessary. Axle Ratings for this end range from 7,000 lb. to 22,000 lb.

Type 3: Anti-Tilt Design

The Anti-Tilt design limits the amount of angulation of the end. This restricts front to back wind-up of the Tie Rod Connector which could cause interference with the axle housing.

Type 4: Power Cylinder End

The Power Cylinder End is used to assist steering linkage in power steering applications.

Notes: 1 - Suffix L denoted roadside position on vehicle; Suffix R denoted curbside.

Le suffixe L identifie le côté rue par rapport au véhicule; le suffixe R dénote le côté trottoir

Sufijo L denota la posición del borde de la carretera respecto al vehículo; Sufijo R denota la posición del lado de encintado

Dimensional Identification - Steering Ends (Tie Rod)

Tabla de dimensiones - Extremos de brazos de dirección

TORQUE RODS

VARILLAS DE TORSIÓN

BIELLES DE TORQUE

Function:

The main function of a torque rod is to maintain axle position under the vehicle's frame. The torque rod transmits the acceleration, braking and cornering force between the frame and axle.

Inspection / Replacement:

When a torque rod fails to perform its main functions, various driveline related problems could occur. Truck wandering is a major complaint resulting from torque rod failure. Other problems include U-joint failure, excessive tire wear, axle housing fatigue, ring gear and pinion failure and other driveline related failures.

Torque Rod Designs:

- **Sliding Bearing or Split Bearing Design:**

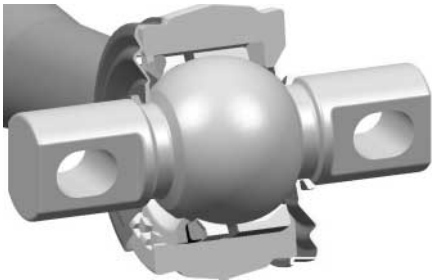

Offers the high articulation needed for vocational applications (Dump trucks, refuse trucks, construction vehicles).

- **Rubber Bushed Design:**

Well suited for on-highway use (truck and/or bus) and offers damping characteristics to reduce noise/vibration transfer.

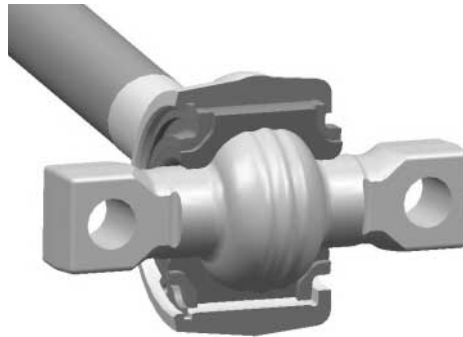

Sliding Bearing

- Full range of suspension applications
- Engineered to withstand high frequency, on-highway oscillations
- Allow for unrestricted +/-15° angulation and full 360° rotation, providing superb flexibility
- Ideal in off-road situations where rugged terrain and loads push suspensions to the limit

Rubber Metal Bearing

- Dampens and Isolates noise transmission
- Offers positive retention of bushing with shoulder and ring
- Recommended for line haul, vocational, bus and RV applications

HEIGHT CONTROL VALVE

VÁLVULAS DE CONTROL DE LA ALTURA

VALVES DE CONTÔLE DE LA HAUTEUR

Air suspension systems on which today's trucks, tractors and trailers ride are superb examples of advanced engineering with an emphasis on performance and durability. At the heart of these suspension systems, typically hidden from view, is a small component on which the system depends upon: the height control valve (aka., air leveling valve). When this valve fails, so does the operation of the entire air suspension system.

The Roadleveler Height Control Valve (HCV), distributed exclusively by PACCAR Parts, has resolved this problem by providing a valve to meet maximum performance and durability today's air suspension systems require: The Roadleveler Shear Seal™ Leveling Valve.

The Roadleveler HCV Design:

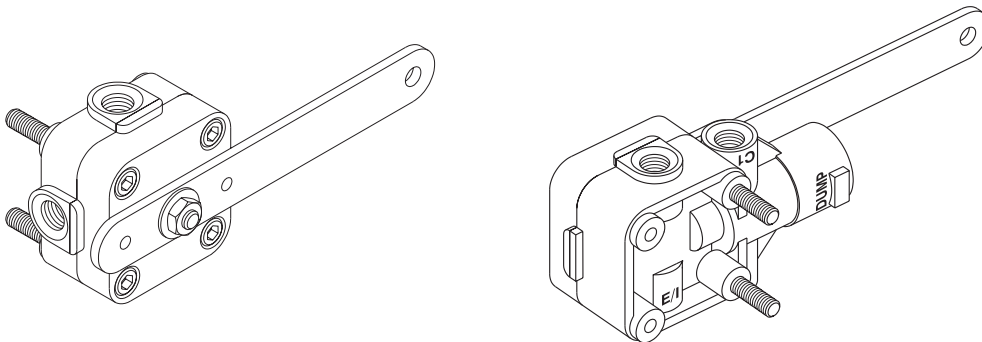

- Patented Shear Seal™ Design Principal with a metal to metal seal.
 - The Shear Seal™ Advantage
 - Seal design provides virtually zero leaks.
 - Handles contaminants better than any other valve on the market today.
 - Only one moving part.

Function:

- Used to maintain recommended ride height.
 - Truck, tractor and trailer primary air suspension
 - Cab suspensions
- All Roadleveler air suspension valves have three modes.
 - Dead band mode – Supply/exhaust ports blocked.
 - Fill mode – Air moves from air supply tank to inflate air bags.
 - Exhaust mode – Air exhausts from the air bags.
 - Dump function – Dumps air from air springs when activated.

Product Features:

- One moving part is more reliable ensuring longer product life, less down time.
- Instant response enables a smoother ride reducing residual equipment wear.
- Shear seal metal to metal seating "wear in" providing a better seal to keep contaminants out.
- Rugged construction is more tolerant of environmental conditions.
- Dual output ports to bags simplifies plumbing.
- 100% of valves are tested to ensure product reliability.
- Universal kit replaces most competitive units.

Keep your truck in top shape with our full line of OEM quality parts

From compressors to clutches, bumpers to belts, hoses to shocks, we have exactly what you need to keep your operation running smoothly. Just visit your nearest dealer and choose from our full line of innovative, high-quality parts.

Stay tough with INLINE quality parts for critical components

- Transmissions
- Axles
- Air Dryer Cartridges
- Wheel Attaching Hardware
- Electrical Components

OEM quality ACRAFIT exhaust products for leading models

- Mufflers
- Muffler Clamps and Guards
- Exhaust Elbows, Pipes and Stacks
- Flex Pipe

CLIMATECH HVAC parts for all makes

- Heat Exchangers
- Blower Motors and Filters
- A/C Compressors
- Valves and Switches
- Ventilation Fans

Extend maintenance life with premium products from DYNACRAFT

- Drive Belts
- Battery Cables
- Truck Hoses
- Fittings and Adaptors
- Hardware

MIRREX image-enhancing accessories at competitive prices

- Chrome Accessories
- Dash Accessories
- Mirrors
- Chrome Bumpers
- Stainless Steel Light Panels

Get outstanding value with PACELINE heavy duty components

- Clutches
- Lighting

Trust ROADLEVELER for high performance ride control and steering products

- Shock Absorbers
- Height Control Valves
- King Pin Kits
- Steering Ends
- Torque Rods

**Serving the heavy
duty truck industry
with innovative,
high quality parts**

**Count on our extensive dealership network
for all your parts and service needs**

ROAD LEVELER

- Shock Absorbers
- King Pin Kits
- Steering Ends

- Amortiguadores
- Kit de eje de giro
- Extremo de brazo de dirección

- Amortisseurs
- Néc. de pivot de fusée
- Embout de biellette de direction

- Torque Rods
- Height Control Valves

- Varillas de torsión
- Válvulas de control de la altura

- Bielles de torque
- Valves de contrôle de la hauteur
